

Partnership-Track Diagnostic Neuroradiologist

Position Summary:

San Diego Imaging Medical Group, an independent physician-owned practice, is seeking a fellowship-trained neuroradiologist to join us in July 2019 in a full-time, partnership-track position with full evening and weekend call responsibilities (overnight diagnostic call is covered by our internal Night radiologists combined with external teleradiology).

Our ideal candidate is proficient in all areas of diagnostic neuroradiology, including head/neck imaging, and also has strong, broad diagnostic radiology capabilities. Skills such as nuclear medicine, PET/CT, and cardiac imaging are a plus. MQSA certification is helpful as well. Efficiency is essential, as we are a very busy practice.

This position is for San Diego Imaging's South Division, which provides coverage for the Sharp hospital system in central San Diego and San Diego's South Bay. This includes Sharp Memorial Hospital, a 459-bed level 2 trauma center. We also staff Rady Children's Hospital and three imaging centers. In addition to our beautiful location, SDI is known for quality, stability, fairness, and strong management. Compensation and benefits are very competitive. For consideration, please submit your CV and a cover letter to: Suzy.worthington@sandiegoimaging.com

Essential Duties and Responsibilities:

- Full evening and weekend call responsibilities
- Bullet
- Bullet
