

Title: Partnership-Track Interventional Radiologist

Position Summary:

San Diego Imaging Medical Group, an independent physician-owned practice, is seeking a fellowship-trained interventional radiologist to join us in July 2019 in a full-time, partnership-track capacity with full evening and weekend call responsibilities.

SDI provides a full range of high-level angiographic and interventional services, including peripheral angiography and intervention, TIPS, trauma embolization, ischemic stroke intervention, UFE, venous access, interventional oncology, hepatobiliary intervention, image-guided biopsies and drainages, vertebroplasty/kyphoplasty, and pain management. We also provide support for pediatric angiography and interventional procedures at Rady Children's Hospital. Candidates will be expected to perform a variable amount of general diagnostic work as well.

This position is for San Diego Imaging's South Division, which provides coverage for the Sharp hospital system in central San Diego and San Diego's South Bay. We also staff Rady Children's Hospital and three imaging centers. In addition to our beautiful location, SDI is known for quality, stability, fairness, and strong management. Compensation and benefits are very competitive.

Essential Duties and Responsibilities:

- Full evening and weekend call responsibilities

Knowledge/Abilities/Skills:

- High-level angiographic and interventional experience
- Pediatric angiography and interventional procedures
- General diagnostic work

Education:

- Doctorate
- Fellowship Trained, CA License, Board Certified

Work Experience:

- 0-1 Year
